

## Technical and Non-Technical Quiz Competition Report

### Event Details

**Title:** Technical and Non-Technical Quiz Competition

**Date:** Wednesday, 16/10/2024. **Time:** 1:00 PM

**Venue:** Class room-208

**Participants:** All Mechanical Engineering students

**Co-ordinator:** Prof. V. D. Thorat

### **Introduction:**

The Technical and Non-Technical Quiz Competition was held to promote knowledge, foster creativity, and encourage teamwork among participants. The event aimed to provide a platform for individuals with varying expertise to test their skills, learn new concepts, and showcase their understanding in both technical and non-technical domains. The competition was divided into two segments: the **Technical Quiz**, which focused on subjects like fluid mechanics, metallurgy, manufacturing, design, production, thermodynamics and the **Non-Technical Quiz**, which covered a wide range of general knowledge topics such as history, culture, geography, and current events.

### **Objectives**

- To create a fun and challenging environment for participants to apply their knowledge.
- To encourage interdisciplinary learning by combining technical and non-technical subjects.
- To improve participants' problem-solving abilities and critical thinking.
- To provide a platform for individuals to display their expertise in diverse areas.
- To foster team spirit and healthy competition among participants.

## Structure of the Quiz

The competition was structured as follows:

### 1. Technical Quiz:

- Topics included fluid mechanics, metallurgy, manufacturing, design, production, thermodynamics The format included multiple-choice questions (MCQs)
- Participants were given a limited time to answer questions, requiring both speed and accuracy.

### 2. Non-Technical Quiz:

- Topics covered general knowledge, current affairs, history, geography, literature, art, culture and entertainment.
- Emphasis was placed on quick thinking and recall.

## Key Highlights

- **Engagement and Interaction:** The quiz was designed to be interactive, with live score updates and audience participation. This kept the energy high and maintained audience engagement throughout the competition.
- **Learning Opportunity:** Many participants reported learning new facts and gaining insights into subjects they were less familiar with, making the event both entertaining and educational.

## Result

- **Winner: Mr. Vaibhav S. Modak,** secured the highest score in both the Technical and Non-Technical rounds.

## Summery

The Technical and Non-Technical Quiz Competition was a resounding success, achieving its goal of blending academic rigor with fun and fostering an inclusive learning environment. The event not only tested participants' knowledge but also encouraged quick thinking, and adaptability. The feedback received from both participants and attendees was overwhelmingly positive, highlighting the event as a valuable opportunity for personal growth and knowledge exchange. Based on the success of this competition, future editions are expected to be expanded to include more rounds and a broader range of topics to further engage and challenge participants.
